

Hi! My name is Kimberly Frahm. I live in Greenwood with my husband, Tad, and my two sons, Brady and Jackson. I love to tell stories about my family, so I'm sure your child will have some funny things to share with you this year! Don't believe everything you hear, though, and I promise not to believe everything I hear about your family. Haha! If I'm not at Pleasant Crossing, then I'm probably running my boys to their activities or just hanging out with my family. There's nothing I enjoy more than quality family time! My husband is an art teacher at Greenwood High School. Jackson (1st grade) is becoming quite an athlete already! He loves nearly every sport he tries. His favorites right now are wrestling, baseball, and football. Brady (5th grade) is our creative artist, musician, and animal expert. He takes piano lessons, enjoys Minecraft, builds Lego sets, and loves to work with animals. As a family, we enjoy spending time outdoors. We spend our free time hiking, fishing, camping, riding bikes, jumping on our trampoline, sitting around a campfire, and exploring state parks. Can you tell that Brady doesn't like to have his picture taken? :)

I grew up on a huge farm in rural Kansas. It's been a huge blessing for my boys to visit our family farm as often as we can get there. My boys love to ride horses and hike the creek banks. We always have a great time when we visit the family farm in Kansas! It takes a lot of long hours and hard work to run a farm. I learned, from an early age, what a strong work ethic looks like. I guarantee to work hard for your child! I'm committed to doing whatever it takes to help your child succeed.

While I was growing up, I always knew I would be a teacher some day. Sure enough! I'm extremely passionate about my teaching career and making a difference in the lives of children. It's a huge challenge, it requires long hours after the children go home, and teachers often don't get the respect they deserve. However, I feel it's the most rewarding career in the world!!! I find great joy in helping children discover their gifts and talents and watching them exceed their wildest expectations. I will teach your child the facts, skills, and information they need to succeed in school, but more importantly...I hope to instill the overall JOY of learning, dreaming, and achieving that will be required to succeed in life!

(Continued on the next page)

I left Kansas to attend Anderson University. After meeting Tad, I transferred to the University of Indianapolis where I graduated with an Elementary Education degree, a Reading minor, and a Kindergarten endorsement. I spent the first 11 years of my teaching career at the MSD of Wayne Township. I then took a break from teaching so I could be home with my boys. I will never regret the time I spent at home with my kids; however, after Jackson started kindergarten last year, I wanted nothing more than to get back in the classroom! I'm SO excited to be at Pleasant Crossing Elementary! What a GREAT school!!! I've been so impressed and I can hardly wait to see what the future holds. I know we are going to have an amazing year!

Mrs. Frahm's List of Favorites...

- Snacks: Hershey Kisses, Popcorn, Carmel Apples
- Drink: Fountain Pepsi or Coke
